HAVE SOMETHING FOR SALE?

Sell It On The EAARS Facebook Page

For the 314 of us Hams (as of this printing) that belong to the EAARS Facebook group, we have enabled the FOR SALE section within the group that allows you to list your unwanted radio gear. When on the EAARS Facebook page, simply click on the option at the top that says... "BUY & SELL". Everything listed by the groups members, will be shown to all members of the page. The section follows the standard Facebook Marketplace format that allows you to enter all the details of what you are selling including the option to ship at buyers expense or sellers expense OR pick the item up locally.

Since Marketplace does not have a specific category for Ham Radio, if you do not plan on offering shipping, select Miscellaneous for the category. If you do want to offer shipping, select something offering shipping. Regardless of the category you select, we will all see it posted. We are working on seeing how we can at least add Communications to the category called Electronics.

If you belong to one of the many other Ham Radio For Sale groups, it will also give you the option to list on those sites also without going to those sites and list separately. Just know the rules of the other sites prior to linking your item(s). You can add all the photos & videos of your equipment along with details and description and whether it WORKS OR NOT.

There has already been a few that have posted their radio gear on the page and some have actually sold already. It's like a EVERYDAY Hamfest.

Unlike a lot of For Sale pages for Ham Radio, we won't preach a lot of rules for posting. We welcome the following items including Ham Radio Gear, Shortwave Gear, Transmitters & Receivers, Scanners, Antennas/Coax/Support Structures, FRS/GMRS and yes... CB Equipment as there are many of us Hams that are heavily involved in 11 Meters (INCLUDING MYSELF). TV's and stereos might be frowned upon, but use YOUR judgment. You know what other Hams might be interested in. Basically, if it goes into a Ham Shack and not a living room, it's probably welcomed.

Please make sure you list a price in the PRICE field, as no price listed, will cause deletion. And please remove the entry once your item sells. We don't want to get all excited on an item that is no longer available.

Any updates to the For Sale feature, will be posted here in the newsletter and also on the EAARS Facebook page.

Enjoy this feature and if you have multiple items for sale, please list them separately.

73,
Chris - N7JND

The RST Spring Hamfest

On March 25th, the Radio Society of Tucson held its spring Hamfest in Tucson. There was an excellent turnout in this six row gathering of Ham Radio Operators selling everything from books, parts, new radios and classic boat anchors and a little bit of everything else. Thanks to the Boy Scouts of America – Troop 157 for providing great food. Instead of doing a big write up, I will let the pictures tell the story...

Clarence P. Dusty Baugher SK - W8FAS

Clarence P. "Dusty" Baugher, Jr., 92, of Conneaut, passed away March 8, 2023 at the Kremer Home in Conneaut. Born December 17, 1930 in Conneaut, he was the son of Clarence Sr. and Elizabeth (Titus) Baugher.

He graduated from Edgewood High School class of 1948. Clarence served in US Coast Guard after his discharge he served in the Army National Guard, after his honorable discharge, he went to work for the Conneaut Water Department, then moved to the new Conneaut sewer department where he was Superintendent and moved on and retired from Unisom in 1992.

He belonged to Good Shepherd Lutheran Church, was a founding member of the Conneaut Amateur Radio Club, Clarence was the lead man for many years for the national emergency communications. He ran a Sunday Night net for many years. He was an instructor for those who were seeking to obtain their ham radio license. He was an "Elmer" for many of those who did get their license and was reported by many to be a "great Elmer". During the silent key ceremony on March 9, 2023 during the Conneaut, Ohio net, Clarence was said to have been "... a big influence on ham radio. He had been an operator since the 1940's, had a really unique voice, was very energetic, a very good man, very friendly, open, and really did a lot for the ham community. ... Clarence would fly to Florida every year and reported to his ham buddies that he could reach repeaters all over, including 5 at one time, from up in the air. He did everything you could think of in ham radio." He and a good friend of his built a home-made satellite and bounced signals off of the moon!

Clarence was a licensed pilot who also built sail planes and became an instructor for those who wanted to learn to fly them. He did own a private airplane which he and a friend stripped down and rebuilt. Clarence and another of his friends built a gyrocopter (experimental) which, unfortunately crashed, killing his friend and ended that part of his airplane building. Clarence went on to earn the highest private pilot rating available and enjoyed flying immensely for many years.

Clarence was also a member of Lake Erie Boat Club, Amboy Rifle Club, Solon Rifle Club, Evergreen Masonic Lodge #222, Conneaut Elks #256, the Republican Club, and was a city of Conneaut Councilman at large. He enjoyed riding his Indian motorcycle, firearms, and golfing at Windy Hills golf course where he served as a ranger.

Survivors include his children, Karen (Jay) Brown, Linda (Rod) McGhee, Patricia (Roger) Rugg and Sharon (Arnie Carlson) Baugher; five grandchildren, ten great-grandchildren, and one great great-granddaughter; brother, Earl Baugher.

He was preceded in death by his parents and his wives, Clarice, Sandra, and Irene; brother, David.

He is very sadly missed by all whose lives he touched as well as his family.

*December 17, 1930 -
March 8, 2023
92 Years Old*

Last Chance To Use Ham Test Online

This is John, W1AI, the creator, owner, software developer, and coursemaster of HamTestOnline™.

I launched the HamTestOnline™ website in August 2002, and I've spent the last 20 years helping tens of thousands of students pass the ham radio exams. While it's been a tremendous amount of work, it's also been the most fun and personally rewarding portion of my career. However, I'm turning 68 this year, and I'm ready to retire.

Therefore (unless I find a serious buyer), we will be shutting down the website effective June 30, 2023.

I truly appreciate all the support and encouragement we've received from our loyal customers through the years!

If you are one of our eternal procrastinators, this is your last chance. As this newsletter goes out, we are selling 3-month website subscriptions. However, as the website shutdown date approaches, we will be selling shorter and shorter subscription terms, so that no subscription extends past June 30.

Three months is plenty of time for most students to get to Extra. In fact, our most successful students use concentrated study, cramming all of their studies into a few weeks. We've had hundreds of students go from zero to Extra in a single exam session after studying for 6 weeks or less. If you are willing to put in the effort, you still have time to get your Extra class license before this resource disappears forever!

While the above statement comes directly from John – W1AI, there are many of us that utilized Ham Test Online to study for our Ham Radio License. We appreciate the 20 years of service that John put into this excellent service to the Ham Radio Community.

EAARS would like to wish John the happiest of retirement.

If you are interested in obtaining your General or Extra class license or know of someone that might be interested in obtaining a Technician license, this is your last chance. For further information on this course, please visit www.hamtestonline.com

If you would like to read the article posted by john in full about him shutting down, please visit... <https://www.hamradiolicenseexam.com/newsletter-TSE-20230321-going-out-of-business.htm>

Cooking up
Some Magic

Ambrosia Salad

This delicious Ambrosia Salad is so easy to make and always a big hit with kids and adults alike! Made in just one bowl, this classic dessert salad is the perfection addition to your next gathering!

Course: Dessert

Cuisine: American

Keyword ambrosia, ambrosia salad, dessert

Prep Time: 5 minutes

Total Time: 5 minutes

Servings: 12 servings

Calories: 234kcal

Author: Trish - Mom On Timeout

Ingredients

8 oz Cool Whip , lite is fine
1/2 cup sour cream , light is fine
11 oz mandarin oranges drained
20 oz crushed pineapple drained
10 oz maraschino cherries drained, halved, and patted dry
1 cup sweetened coconut flakes
2 cups miniature marshmallows
3/4 cup chopped nuts pecans, walnuts, cashews optional

Instructions

1. Fold sour cream into Cool Whip in a large serving bowl.
2. Fold in remaining ingredients making sure the pineapple, oranges, and cherries have been properly drained.
3. Serve immediately or refrigerate until serving.
